ASCS Today

By TOM CONRAD

ACP Signup underway - The sign-up period for agricultural conservation program practices is currently underway at the ASCS office. Applications will be accepted until February 26.

We ask farmers to sign up as soon as possible because their practices must be approved by the county committee before the work can begin. Farmers who start conservation practices before approval are ineligible for cost-shares.

Program funds are available for SL1, Permanent Vegetative Cover Establishment; SL2, Permanent Vegetative Cover Improvement; SL3, Stripcropping; SL4, Terrace Systems; SL5, Diversions; SL6, Grazing Land Protection (watering troughs, etc.); Permanent Vegetative Cover on Critical Areas; WP3, Sod Waterways; WP4, Animal Waste Control Facilities; FR1, Forest Tree Plantations; FR2, Forest Tree Stand Improvement. These practices will provide enduring solutions to the problems of farmland being a source of agricultural pollution or land affected by wind or water erosion. The program also authorizes two or more farmers to pool their resources, efforts and finances to peform practices which will solve a mutual conservation problem on their farms.

ACP practices this year have corrected conservation problems on more than 1500 acres of farmland in Appomattox County. With last year's practices completed, farmers may want to begin plans for spring practices.

ASCS encourages farmers to correct soil and water conservation problems, and where needed, assists them with the cost of applying conservation practices. Program participants will receive federal financial assistance from 50% to 75% of the cost to help meet their most critical conservation needs.

The ACP is a joint effort by farmers and the Government to conserve soil and water, and to reduce agricultural pollution.

Report Your 1981 Acreages by February 5, 1982 - The new farm bill has been enacted into law and it provides that farm bases be established for wheat, corn, grain sorghum, oats, and barley.

In order to establish the bases for the above crops, a 1981 acreage report is required for wheat, barley, grain sorghum and corn. As far as oats are concerned, producers will need to report planted acreage for both 1980 and 1981 regardless of the use made of the crop.

These acreage reports must be made by February 5, 1982. If you grew any of the above crops in the mentioned year or years it is essential that they be reported in order to be eligible for program benefits for the next few years under the wheat and feed grain program. If you do not report, your base will be zero.

Reports for 1981 planted acreage of wheat, corn, grain sorghum, and barley will be considered late filed and before they can be accepted by the County Committee the producer must pay the cost for the determination of acreage and provide documented evidence of the crop. Documented evidence includes such items as sales receipts; seed receipts; receipts for cleaning, treating, etc. of seed planted on farm; cancelled check for custom harvesting; signed statement from at least 2 reliable persons that have knowledge of the crop.

If you grew oats in 1980 and/or 1981, an acreage determination will not need to be made therefore no cost incurred for reporting oats.

LOGGING SUPERINTENDENT Benny Davis explains forestry operation to a group of touring forestry students from Paul Smith's College during a recent visit to Appomattox.

New York students get look at southern forest

Paul Smith's College forestry students made their annual tour to Virginia Woodlands January 6. The forestry students, led by Professors Jack Skelly and Greg Smith, make a two week trip to view in-field forestry operations in the South each year during their winter break.

Paul Smith's College has a student body of 1200 students, 550 in forestry. It is the oldest two year technical school in the nation, offering an Associate Degree in Applied Science for forestry technicians. The private school is located in upstate New York near Lake Placid.

While touring the Virginia Woodlands operations, the 18 students viewed the entire forest management process. Timber sales technician Andy Davis showed the group how timber sales were laid-out and then the group viewed private contractor longwood and shortwood harvesting operations. District Forester Trenor Hypes explained the factors and processes involved in road construction, site preparation and reforestation. Forester Sally Lane and Technician Peggy Gertner demonstrated the use of the COMARC mapping system and aerial photographs in woodlands operations. Timber sales Technician Donnie Grimm reviewed the thinning program and Benny Davis, Logging Supervisor showed the group the company thinning operation. Public Affairs Forester, David Coffman discussed multiple-use forest management programs at the woodlands, environmental concerns and the forest industry in Virginia.

Professor Greg Smith noted that the tour was important for his students because for many, this was the first and possibly only opportunity for them to see southern forest management operations. He complimented the Westvaco personnel for their time and interest in sharing their experience with the students.

Blood chairman cites people who donated blood for first time

Editor:

We had a good number of first time donors on this visit but did not beat our previous record of 26. We're very proud of these 20 first time donors and they are as follows:

Robert J. Wingfield, Molly R. Handy, Mary K. Hudson, Allen B. Smith, Mike J. Hummel, all of which are students. Others include: **Sue Ann Stonnell, Ann R. Fletcher, Mattie V. Kelso, Jerry W. Hudson, Thomas A. Goin, Mary E. Tolley, Joann C. Blue, Percy E. Kidd, Patricia J. Moore, Freddie L. Moore, David A. Hancock, Susan E. Handy, Gloria J. Williamson, Gayla L. Wilson, and Jesse L. Hancock.** I sincerely hope we can count on all of you to become regular donors in the future.

Donors who received pins on this visit were: **Roger D. Davis,** 5 gal. **Nancy Hall, Harvey H. Hamlett and Evelyn Crain** 4 gal. pins. One gallon recipients: **Judy Fay Taylor, Mark D. Thomas, Charles T. Moses, III, Lawton Murrell Thomas, Jr., Lelia Garrett, and Donald L. Ferguson.**

Again many thanks to all who made this visit so successful. I am sure all will agree that our time was well spent. I noticed that some of our old regulars have not been lately and I do hope you will be coming again soon. Our next visit is **February 22, 1982,** just 2 months from the Dec. date, so all will be eligible to donate again. If a person is healthy he can safely donate every 8 weeks.

A special thanks to Evergreen Baptist Church for doing such a good job hosting our canteen.

Sincerely,
Alice C. Martin

In Remembrance of

Not ours to know the
reason why,
unanswered is our prayer,
but ours to wait for
God's own time
to lift the cross we bear;
not ours to know the
reason why
from loved ones we must part,
but ours to live in
faith and hope,
though bleeding to the heart;
not ours to know the reason
why this anguish, strife or pain,
but ours to know a crown
of thorns
sweet grace for us gain,
a cross, a bleeding heart
and crown
What greater gifts are given?
Be still, my heart, and
murmur not;
these are the keys of heaven.

In memory of Walter H. Wingfield who passed away January 25, 1981.
Walter:
We sat beside your bed
our hearts were crushed
and sore
we did our duty to the end
till we could do no more
in tears we watched you
sinking and fade away
though our hearts
were breaking
we knew when the brilliant
light entered your room
God had sent his Angel for you
You left behind some aching
hearts
that loved you most sincere
we never shall and never will
forget you, dear
so we ask God to give us grace
each day we pray
that we'll have a family reunion
in Heaven someday.
